

Attention Landholders

***Have you been thinking about Revegetation or Fencing work?
Then now is the time to do it or put it in the budget!***

NSPNR has funding available for the next three years for suitable sites within the North Stirlings Pallinup and Gillamii area's over one million hectares through Enhancing Biodiversity & Revolutionising Revegetation Techniques.

**Three different types of revegetation techniques are available;
biodiversity plantings, bio diverse sandalwood plantings and fodder/forage plantings.**

**Come along on the 14th of August to either the Gillamii Centre at 9am-11am
or the Gnowangerup CRC at 1pm-3pm
for more information and a cuppa.**

Guest speakers will include:

**Dean Revell- Senior Research Scientist with CSIRO (Fodder/forage plantings)
Geoff Woodall- Native Plant Systems Agronomist, Researcher with CENRM(UWA)
Wendy Bradshaw- Biodiversity Officer South Coast NRM**

**To RSVP or for more information contact Marnie Vaux, NRM Officer
Pallinup Landcare Centre on 98281086, or email marnie@nspnr.com.au**
